# CIIF Reference Model
Draft Version 1.7

Noah Spivak
Booz·Allen & Hamilton Inc.
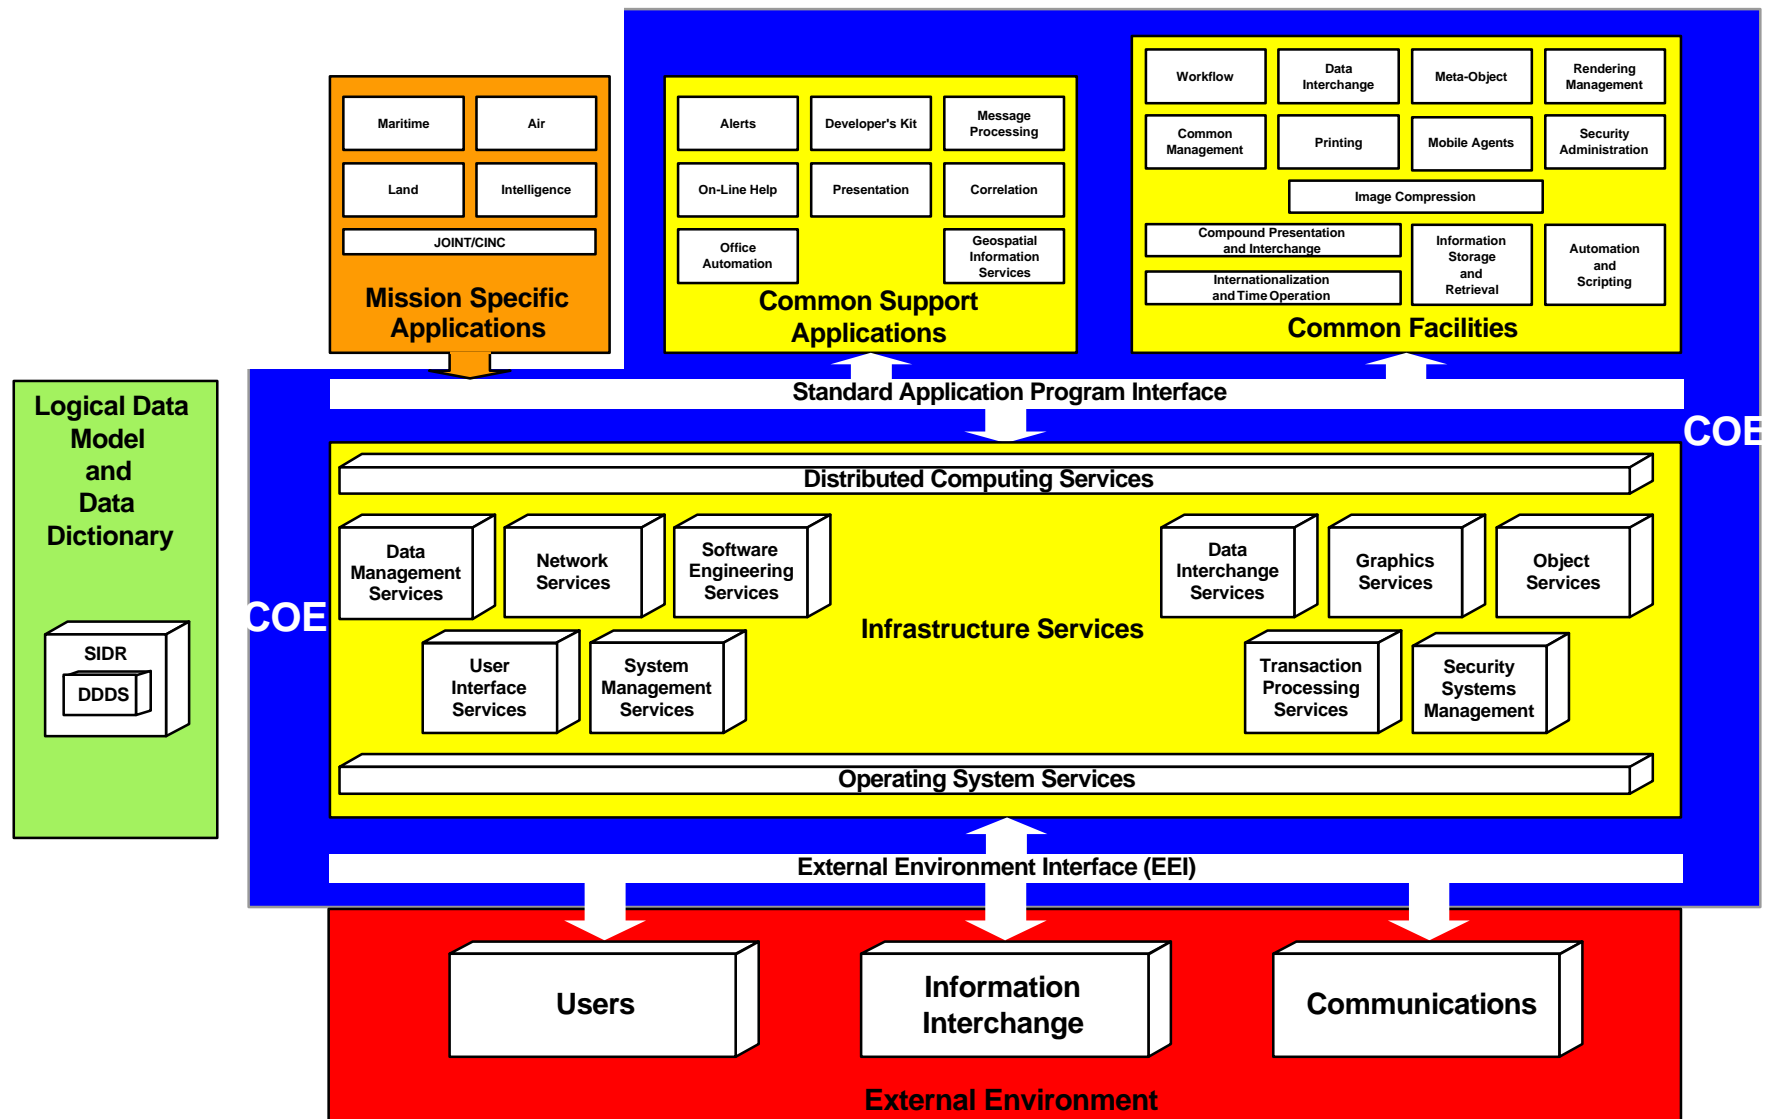

(703) 902-6772
spivak_noah@bah.com

November 20, 1996

Origins of the Reference Model

The CIIF Reference Model

Mission Specific Applications

Maritime	Air
Land	Intelligence

JOINT/CINC

Common Support Applications

Alerts	Developer's Kit	Message Processing
On-Line Help	Presentation	Correlation
Office Automation		Geospatial Information Services

Common Facilities

Workflow	Data Interchange	Meta-Object	Rendering Management
Common Management	Printing	Mobile Agents	Security Administration

Image Compression

Compound Presentation and Interchange	Information Storage and Retrieval	Automation and Scripting
Internationalization and Time Operation		

Logical Data Model and Data Dictionary

SIDR

DDDS

COE

COE

Standard Application Program Interface

Infrastructure Services

Distributed Computing Services

Data Management Services	Network Services	Software Engineering Services
User Interface Services	System Management Services	

Data Interchange Services	Graphics Services	Object Services
Transaction Processing Services	Security Systems Management	

Operating System Services

External Environment Interface (EEI)

External Environment

Users	Information Interchange	Communications

CIIF Facilities and Object Service Interfaces

Geospatial Information Services

Image Access Services

- Catalog Access Facility
- Image Access Facility
- Imagery Dissemination Facility
- Profile and Notification Facility

Image Exploitation Services

- Image Mensuration Facility
- Image Maniplation Facility
- Imagery Registration Facility
- Geolocation Facility
- Image Annotation Facility

Management Support Services

- Requirements Management Support Services
- Exploitation Management Support Services
- Dissemination Management Support Services

Other Geospatial Support Applications

Object Services

Collections Service	Concurrency Service	Event Service
Externalization Service	Interface Versioning Service	Liscensing Service
Life Cycle Service	Messaging Service	Naming Service
Persistent Object Service	Properties Service	Query Service
Relationship Service	Security Service	Startup Service
Time Service	Trader Service	Transaction Service

Mission Specific Applications

- Maritime
- Air
- Land
- Intelligence
- JOINTCINC

Common Support Applications

- Alerts
- Developer's Kit
- On-Line Help
- Presentation
- Office Automation
- Geospatial Information Services

Common Facilities

- Workflow
- Data Interchange
- Meta-Object
- Common Management
- Printing
- Mobile Agents
- ImageCompression
- Compound Presentation and Interchange
- Information Storage and Retrieval
- Internationalization and Time Operation

Standard Application Program Interface

Distributed Computing Services

Infrastructure Services

- Data Management Services
- Network Services
- Software Engineering Services
- Data Interchange Services
- Graphics Services
- Object Services
- User Interface Services
- System Management Services
- Transaction Processing Services
- Security Systems Management

Operating System Services

External Environment Interface (EEI)

COE

Logical Data Model and Data Dictionary

SIDR
DDDS

External Environment

- Users
- Information Interchange
- Communications

The Long-Term CIIF Reference Model

Geospatial Information Domain Interfaces

Facilities

> **Candidate Facilities**

Image Access Interfaces

Catalog Access Facility

Image Access Facility

Imagery Dissemination Facility

Profile and Notification Facility

Image Exploitation Interfaces

Image Mensuration Facility

Image Manipulation Facility

Image Registration Facility

Geolocation Facility

Image Annotation Facility

Automatic Target Recognition (TBR)

Image Synthesis (TBR)

Image Understanding (TBR)

Management Support Interfaces

Requirements Management Support (TBR)

Exploitation Management Support (TBR)

Dissemination Management Support (TBR)

Mapping, Charting and Geodesy Interfaces (TBR)

Major Categories of USIGS Interoperability

Management Services

Image Access Interfaces

Management Support Interfaces

| Collection Services | Processing Services | Dissemination Services | Exploitation Services | Library Services |

Common Facilities & Object Service Interfaces

Image Exploitation Interfaces

Infrastructure Services

Section 4: The CIIF Architecture

- Structural Organization
- Geospatial Information Services
  - Image Access Interfaces
  - Image Exploitation Interfaces
  - Management Support Interfaces
  - Mapping, Charting & Geodesy Interfaces (TBR)
- Common Facilities
- Infrastructure Services
- Security Services
